

INTERIOR BUILDINGS

**Kelly
Klosure®** 

TOUGH BY DESIGN. CUSTOM BY CHOICE.

Quick assemble buildings for break rooms & other outage needs

800-228-7230 | www.kellyklosure.com

KEEP CREWS AND TOOLS CLOSE TO WORK AREAS

Kelly Klosure's on-site, reusable metal enclosures decrease downtime and offer a safe space for break rooms, lunch rooms and changing areas.

They are ideal for a variety of plant maintenance and upgrades, including:

- outages
- turnarounds
- major repowering projects
- equipment repairs
- new construction

Benefits:

- Increases productivity while reducing costs for contractors and owners
- Reliable delivery
- Quick assembly and disassembly without heavy equipment
- Pre-installed insulation (optional), windows & doors
- Quiet interior when insulated
- Rugged, long-lasting industrial design
- Reusable or permanent

FIRE SAFETY: Kelly Klosure buildings are comprised of all steel "non-combustible" construction. For climate-controlled building requirements, Kelly Klosure offers factory-installed insulation in either a fire-rated (Flame spread of 25 or less) or "non-combustible" mineral wool insulation. Both insulation options include a flat steel interior liner.

Decrease downtime by having tool and break rooms close to where crews are working.

The safer and more economical alternative to wood structures

No matter where your interior building is placed, non-combustible metal panels eliminate fire safety concerns.

Kelly Klosure metal enclosures are pre-engineered and pre-fabricated to the latest IBC, UFC and AISC structural standards.

Standard flat roof interior buildings range from 6' to 33' wide with heights of 8', 10' and 12'

DESIGNED FOR DURABILITY

Versatile modular panel construction

- Attaches to bar grate or existing concrete surfaces
- Factory-assembled panels reduce on-site assembly time
- Easy to reconfigure – reduce or enlarge with modular panels and roofs
- Includes space-saving reusable storage rack when not in use

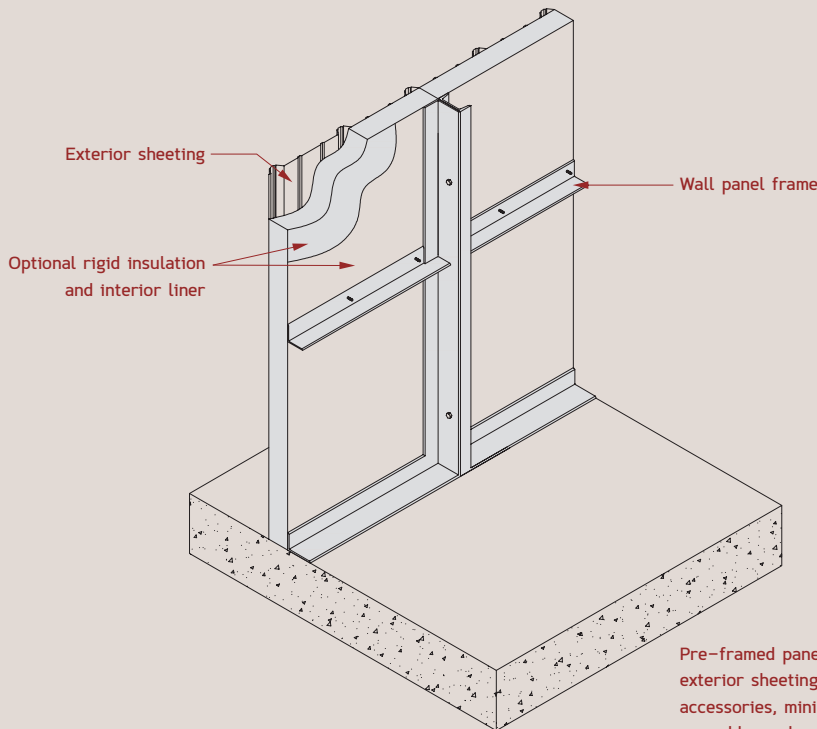

Options

- Prewired electrical packages with main panel, outlets, HVAC and lighting
- Wide variety of door, window, ventilation and other factory-installed accessories
- Factory-installed non-combustible mineral wool insulation
- Various interior finishes including galvanized or painted steel liner and hot-dip galvanized structural framing

Shipping and storage frames reduce the amount of storage area needed and assure efficient handling.

★ EASY TO RECONFIGURE ★

Pre-framed panels include exterior sheeting and accessories, minimizing assembly work on-site

Plain galvanized or painted steel sheeting

Pre-installed insulation, windows and doors
