EXPANDED METAL SECURITY PANELS

Kelly Klosure expanded metal security panels are a sturdy steel option when you want more durability in a harsh environment than wire mesh can provide.

With the patented “Kelly Locking Key” and interchangeable panels, our expanded metal products offer quick set-up and strength for permanent and relocatable security applications.

Options:

- Partition post stands that eliminate the need for concrete anchors
- Interchangeable swing and sliding doors
- Variety of door locking hardware upgrades
- Range of enclosure and wall system configurations

Uses:

- Tool/equipment cribs
- Access control partitions
- Stand alone security cages with roof

Features

- **Heavy duty** alternative to welded and woven wire mesh
- **Durable** expanded metal welded to hot rolled steel framing
- **Easily relocated** and reusable
- **Fast assembly** with modular panel design and patented Locking Key connections
- **Interchangeable** panels for ease of expanding or decreasing the size of your enclosure

Optional latch bolt locking hardware

Optional keyed entry lock

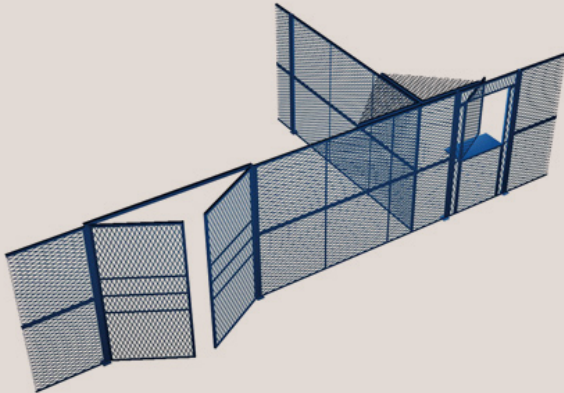

Fast assembly/disassembly with the Locking Key

Range of enclosure and wall system configurations

EXPANDED METAL SECURITY PANELS
